OBJECT: Floorball and indoor hockey references with “Vinylsport M” PVC sport floor by Mondo

We, Mondo S.p.A., are glad to provide the following information about the use for professional floorball and indoor hockey of our PVC sport floor “VINYLSPORT M”, supplied in rolls of 7 mm thickness, along with the positive feedbacks received from the relevant end users.

- **CASE 1 – Playing test sessions with the CZECH FLOORBALL NATIONAL TEAMS (men & women) – Vinylsport M (temporary use) - Sport hall “Dekanka” (Prague 4) Prague, Czech Republic - May 2020**

Introduction

Vinylsport M sport floor with a thickness of 6,2mm and 7mm, has been tested and appreciated as permanent/portable flooring by the players of the *Czech Floorball National Teams* in order to get official feedbacks from elite players on Vinylsport M on the professional and top level floorball use. The tests were performed in May 2020 in the sport hall Dekanka (Prague 4) with the involvement of the **Junior World Champions** and the players of the **men National Team**, like Jakub Buršík, Filip Forman, Patrik Šebka, Kryštof Krbec (capitan of the men team) and Tomáš Hyršl (goalkeeper). The tests also involved some girls of the FbS Bohemians, like Hana Poláková (capitan), Adéla Bočanová (**women National Team**), Daniela Kreisingerová (first goalkeepr), Emilia and Sofia Skalíkové (**Junior National Team**).

For your information, the players were asked to evaluate some specific parameters during the test sessions, on the base of the most frequent playing actions.

Results & Feedback

The feedback seemed to be really positive as confirmed by the following video <https://youtu.be/c-3ZKkSCGU0> where it's possible to see and hear the feedback of each player who had to classify the floor (rating from 1-worst to 5-best) in relation to any activity/property.

- **CASE 3 - The “Spanish Men's Hockey Championship” was held on Vinylsport M temporarily installed on the existing parquet of the Pazo dos Deportes “Paco Paz” in Ourense, Spain - February 2021**

The municipality of Ourense, Spain, has expanded its sports offer: the community chose Vinylsport M as PVC removable sport flooring to host the 68th edition of the Spanish Men's Hockey Championship in the Galician community from the 5th to the 7th of February 2021.

The competition, held in the first week of February, was attended by the top eight Spanish men's teams divided into two groups. Group A was formed by *FC Barcelona*, *CD Málaga 91*, *CH Barrocás* and *RS Tenis Magdalena*; and Group B was formed by *SPV Complutense*, *CH Madrid Las Rozas*, *CH Carpesa* and *CH Alcalá*. The final, played on 7th February, saw SPV Complutense pitted against CD Málaga 91, with Complutense winning 7-3 and being crowned champions.

- **CASE 4 - The “Women's European Hockey Championship” was held on Vinylsport M temporarily installed on the existing parquet of the Pazo dos Deportes “Paco Paz” in Ourense, Spain - January 2022**

For the following sporting events, given the simplicity of installation, the same organisers have set up the sheets completely independently, including the marking of the lines, which was also done with adhesive tape. This is proof of the high functionality of Vinylsport M flooring as a removable sports flooring system and its suitability and appreciation for indoor hockey events.

The community of Ourense is a hub for indoor hockey in Spain, with many local teams promoting the sport, and the **Oira Municipal Sports Centre**, another centre of excellence for hockey, is also equipped with Mondo sports flooring.
