**EPIFLEX**Mix Series

**EPIFLEX**Uni Series

## **EPIFLEX** RUBBER FLOORING

EPI Sports provides a broad range of Rubber floorings. EPIFLEX is made of a mixture of recycled rubber (SBR) and coloured new rubber granules (EPDM). These are bonded together with a polyurethane binder.

Although every combination of recycled rubber (0-100%) and coloured EPDM granules (0-100%) can be provided, some standard series have been defined. These series have a fixed proportion of recycled rubber versus new rubber.

**EPIFLEX** 20-80 SERIES: 20% Coloured EPDM granules and 80% Recycled Rubber

**EPIFLEX** EXTREME & SENSATION: With 20-35% big(extreme) and small (sensation) EPDM dots

**EPIFLEX** MIX SERIES: Between 60-100% Coloured EPDM

**EPIFLEX** UNI SERIES: 100% EPDM

# **UNIQUE**FEATURES

- Impact sound absorbing
- Excellent anti-slip characteristics even when wet
- Extremely wear resistant
- anti-fatique

CE

## **EPISAFETY TILES**

EPI Safety Tiles help to protect children from serious injuries when falling. Lots of tears can be avoided using specially designed, rubber based, protective surfacing.

EPI Safety Tiles are resilient, durable, shock absorbing and designed to reduce the risk of injury when falling. The tiles provide impact protection at fall heights of up to 3 meters.

EPI Safety tiles are tested according to the HIC testing method in accordance with ASTM 1292 and EN 1177. The tiles can be installed to suit your needs, with or without connecting pin holes.

EPI Safety Tiles can be used in:

- Recreational & park areas
- Residential landscaping
- Schools & nurseries
- Walkways

Dimensions (mm): 1000x1000 / 500x500 Thickness (mm): 20 - 90

## EPI FITNESS TILES

EPI Fitness Tiles protect substrates from damage by heavy falling objects. These tiles are especially designed for weightlifting areas of fitness centers or training facilities.

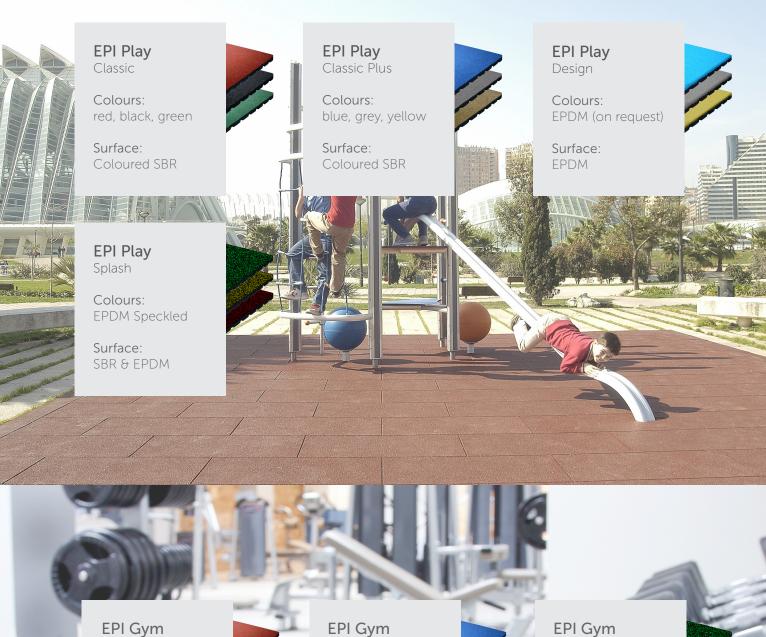

EPI Fitness Tiles avoid deep impact damage while providing outstanding sound deadening as well and ensure that areas around the gym remain quiet.

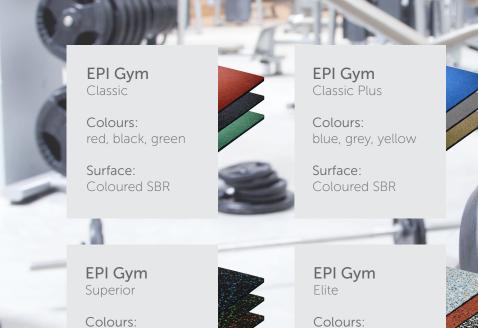

EPI Fitness Tiles can be used in:

- Fitness rooms
- Heavy weight areas
- Healthclubs
- Physical therapeutic areas

Dimensions (mm): 1000x1000 / 500x500 Thickness (mm): 10 - 50

## **ADHESIVES**

EPI Sports produces a broad range of polyurethane based adhesives for:

- Artificial turf
- SBR & EPDM prefab rolls
- Prefabricated rubber flooring
- Other types of floorings
- EPIFLEX Flooring
- All other types of flooring

These adhesives are manufactured under strict conditions and guarantee high quality bonding in all kind of climates, indoor and outdoor.

## WHY EPI GROUP

#### Only top quality is good enough

Top quality starts with the raw materials, which are always carefully inspected upon receipt. After this, we control every step ourselves. As a producer, supplier and distributor, we can always guarantee product quality and a timely, reliable delivery.

#### Research and innovation are paramount

Our research & development department has a modern laboratory at its disposal, measuring over 250 m2. This laboratory contains the latest high-tech equipment for development and analysis. Among other things, our specialists perform rheological tests to determine the processing qualities of the various synthetic materials. They also continuously work on innovations and on the improvement of our existing products.

#### **EPI Experience**

To offer our clients a live experience of our floors, we have developed the EPI Experience. To get acquainted with our flooring systems, you and your clients are welcome to make an appointment for a visit to our <u>showroom</u>, which measures over 320 m2.

### **Experience the EPI-security**

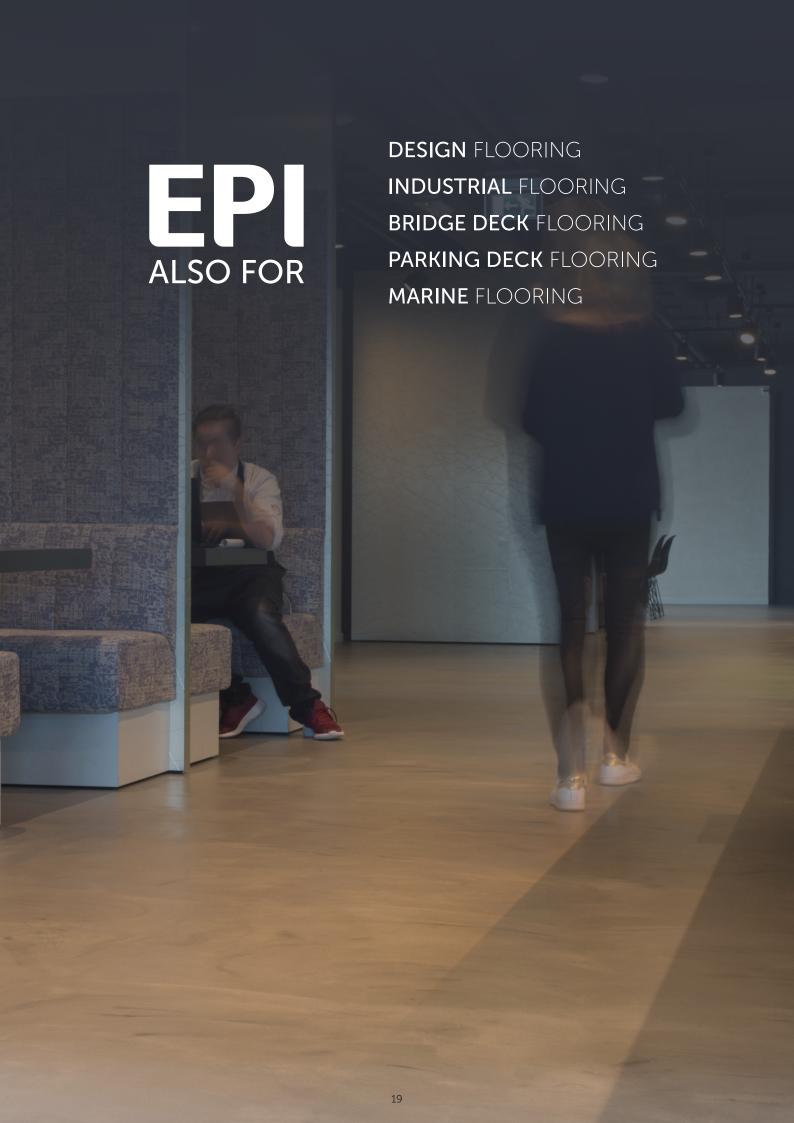

Our systems meet all current requirements and standards. It's called EPI-security!

### We are an all-round producer and supplier

We offer virtually all combinations of synthetic applications and products. We produce and supply design floors for residential and non-residential building, sports floors, bridge deck and parking level systems, industrial floor applications and solutions for ship's decks. The colour palette of our systems is almost infinite. The choice is yours!

#### Independent, stable and client-oriented

We are an independent Dutch company choosing its own direction. In the past thirty years this has repeatedly resulted in amazing products and spectacular projects.

Do you have any questions on our systems? Our experts are ready to answer them.
